

PROPERTY & FACILITY MANAGEMENT

For many years, we have been providing comprehensive property and facility management services in Czech, English, French, and Italian. Our services are used by private investors and corporations, as well as by owners' associations. Our team can manage housing units, apartment buildings, commercial space, and large residential complexes. Besides the technical side of things, we can ensure the maximum occupancy of your property by creditworthy tenants, negotiate optimum rental and lease terms, and turn your unoccupied spaces into a constant income stream.

Our team manages the following types of properties:

- Apartments/units
- Family houses

- Commercial buildings
